HJ CARGO HOLD CLEANING BOOM KIT

HJ Cargo Hold Cleaning Boom Kit is used for cargo hold cleaning and descaling. Connected with the booster pump as a fresh water source, the cleaning boom reaches the top of the hold and enables you to remove even the most difficult and stubborn dirt or scale.

SINGLE-PASS, FAST & EFFICIENT CARGO HOLD CLEANING

- > Simplifies and speeds up cleaning process.
- > Cleans at speeds up to 200 sqm per hour.
- > Reduces cleaning process time.
- > Improves cargo hold surface quality.

ELIMINATES RISK

- > Improves safety.
- > Decreases delays and long preparation for cleaning holds.
- > Reduces man hours and number of occupied crew for cleaning process.

HIGH-PRESSURE FRESH WATER CLEANING WITH CLEANING HEAD NOZZLE UP TO 500 BAR

- > Removes stains and residues from special cargo.
- > Easy access to any place of cargo hold.

COMPATIBILITY WITH MAJOR HIGH PRESSURE WATER JET CLEANING EQUIPMENT

- > Units can be customized.
- > Optional double nozzle head for wider cleaning area.

6-8 Almiridos Str., 18540 Piraeus, Greece **tel.** 0030 210 4225930
