Leisure Range

“When it comes to life-saving equipment,
compromise is not an option”

With over 40 years of expertise in the commercial and leisure marine equipment we consider ourselves to be experts in our field. Representing **some of the leading brands in safety and survival**, and providing high quality inspection services we ensure that you will continue to sail fully compliant with relevant regulations and most importantly with uncompromising safety.

Our certified service station is based in the heart of Piraeus port, right next to your emerging needs.

SERVICES WE OFFER:

LIFEJACKETS

XF

VERSATILE & LIGHTWEIGHT
DESIGN

IDEAL FOR: COASTAL SAILING
& GENERAL WATERSPORTS

FEATURES

1. Easy front donning. **2.** Side adjustment for bespoke fit. **3.** Stainless steel D-ring for safety harness (harness version only) **4.** Single crotch strap eliminating ride-up. **5.** Durable outer cover. **6.** Wave Barrier™ technology helps keep airways clear.

WAVE BARRIER TECHNOLOGY

1. Wave Barrier technology delivers sub 5 second super-fast turn speed. **2.** The wearer is placed on their back keeping airways raised above water. **3.** The interlocking bladder blocks the flow of water into the wearers airways, massively reducing the risk of secondary drowning.

170N BUOYANCY ISO APPROVED **AIS READY** QUICK TURNING SPEED

JON BUOY®

FEATURES

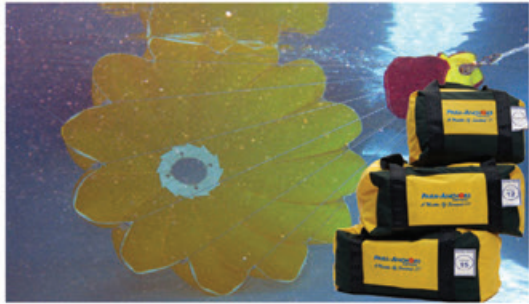

1. Automatic Inflation. 2. Automatic Light. 3. Lifting Ring. 4. SWL of 200kg 5. Retroreflective Binding. 6. Large ballast pocket. 7. 5m weighted throwing line. 8. Repackable. 9. Compact & lightweight. 10. Slimline container. 11. R10 attachment point. 12. Optional Recovery Module release system.

NEW FEATURES FOR MK5

1. Better in water performance. 2. New style casing. 3. Retroreflective binding. 4. AIS attachment patch. 5. Larger visible mast. 6. Ballast meshing. 7. Fully supported Lifting mechanism. 8. Remote station release option

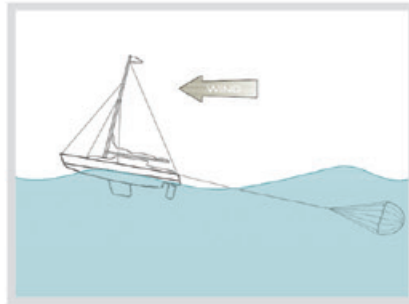

ANCHORS & DROGUES

Para - Anchor

FEATURES

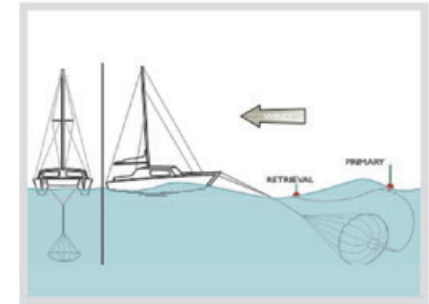

1. High density, brightly coloured nylon for high visibility in search and rescue situation.
2. Fitted stainless sinking chain to help with safer deployment.
3. Reinforced in areas of high load.
4. Easy and safe retrieval using the specific retrieval line available.
5. A range of sizes to fit vessels up to 30m.

Para - Drogue

FEATURES

1. Heavy Duty construction.
2. Easy to Rig.
3. Adjustable openings.
4. Allows greater control in rough seas.
5. Can be rigged and used as an emergency steering device.
6. Helps prevent towed vessels overtaking.
7. Comes complete with a stowage bag.

EPIRBs - SARTs - PLBs

GlobalFIX V4

Emergency Position Indicating Radio Beacon (EPIRB)

Drastically increase your probability of survival at sea with the multiple built-in redundancies of the GlobalFIX™ V4 marine distress EPIRB. Upon activation, the GlobalFIX™ V4's robust internal GPS accurately fixes your exact location. Your coordinates are then broadcast via a powerful 406 MHz distress signal to Search and Rescue forces worldwide.

Pathfinder PRO SART

Survival Craft Radar Search and Rescue Transponder (SART)

Drastically increase your probability of survival at sea with the Pathfinder PRO Search and Rescue Transponder.

ResQLink + PLB

Small and mighty, the ResQLink Personal Locator Beacon (or PLB)

Is a full-powered, GPS-enabled rescue beacon designed for anglers, pilots and backcountry adventurers.

PYROTECHNICS

1

2

3

4

5

6

1. Red Handflare

Unique, compact, telescopic handle allows easy extension for safe operation and saves space when stowed in liferafts

2. Parachute Rocket Red

Long range, day and night distress signalling rocket. Designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water.

3. Smoke Signal Orange

The NEW Comet 3 Minute Smoke Signal Orange is a compact, flat top, daytime distress signal designed to be easy and safe to handle. It provides effective position marking during rescue operations and can be used to indicate wind direction, producing dense orange smoke for a minimum of 3 minutes.

4. Linethrower 250

Single shot, self-contained linethrower with integral striker mechanism. Strategically dispersed around ship.

5. Light & Smoke Signal

Mounted in its steel bracket on each bridge wing attached to a lifebuoy. Produces dense orange smoke for 15 minutes and 2 LED lights burn at 2 candela for 2 hours minimum. Signals location of a man overboard by day or night.

6. Large Polybottle

To store your pyros safe and watertight.

LIGHTS

Daniamant
Be safe at sea

M4-A / W4-A

ALKALINE LIFEJACKET LIGHT AUTOMATIC / MANUAL

This new concept of lifejacket low profile light is a single compact flashing unit. It is manually activated by pressing the switch on the front of the light. The light is emitted through an ultra low profile dome, making the light less susceptible to damage during evacuation.

W4-A

This is the automatic version. The light activates automatically when in water and can be turned off manually if required.

W3

LITHIUM LIFEJACKET LIGHT AUTOMATIC

This new, low profile light is a single compact flashing unit. The light is emitted through an ultra low profile dome, making the light less susceptible to damage during evacuation. Easily fitted with two different backing plates, one to go over a thin strap and one to go over a 5cm belt. This is the automatic version of Dan M3. The light activates automatically when in water and can be turned off manually if required.

Luminous intensity – operation at 25°C
