SOLAS IMMERSION SUIT

Insulated Thermal Protective Immersion Suit Suitable for crew and passengers. It is made of soft and flexible CR neoprene material (combination of neoprene sponge and cloth) to provide thermal protection.

Choose between:

1. Immersion suit with incorporated buoyant cushion behind neck, that provides buoyancy up to $\geq 150\text{N}$. No lifejacket needed.
2. Immersion suit without buoyant cushion. Designed to be worn with a lifejacket.

Standards:

- > SOLAS 74 as amended, Reg.III/4, III/7, III/22, III/32, III/34, X/3
- > 1994 and 2000 HSC Code 8
- > IMO Res. MSC.48(66) (LSA Code) I, II
- > IMO Res. MSC.81 (70)

Characteristics:

- > Prevents a typical wearer's core body temperature from dropping by more than 2°C after six hours in calm water of 0-2°C
- > Lifting strop harness with steel d-ring
- > Solas approved retro-reflective tape
- > Reflective tape $\geq 50m^2$
- > Donning time < 2min
- > Weight < 5kg

It comprises of:

- > packaging bag
- > corrosion-resistant whistle
- > zipper lubricating oil

Sizes:

- > M 155 - 180 cm
- > L 165 - 190 cm
- > XL 175 - 205 cm

Important:

When leaving the factory, the lifejacket light is not installed. Install manually the lifejacket light following the instructions below before storing onboard vessel.

1. Put the clip of the light through the holes of the small pocket of the suit.
2. Press the light firmly on the clip until you hear "click".
